

# CRIS<sup>tin</sup>

Current Research Information System in Norway

# What?

- Research results / NVI (Norwegian Science Index)
- Researcher profiles
- Projects (less used than [Research in Svalbard](#))
- Research units

Information in open and available for everyone. Login required only for registration or administration of data.

# Why?

CRISTin provides:

- *research institutions* with an overview of its own research.
- *researchers* with a simple tool for reporting research, and promoting own research.
- *authorities* with documentation of research results and funding.
- *media / general public* with access to information about Norwegian research.

# How?

- Manual registration - [live demo](#)
- Import from other databases

Keep in mind!

Use correct author addresses of all authors.
